Dhigali Maldives

A slender coral cay in the Raa Atoll, Dhigali Island is pure Maldivian bliss. Ringed by coral + kissed by the sun, this is a luxury hideaway with a difference.

A slender coral cay in the Raa Atoll, ringed by coral + kissed by the sun, this is a luxury hideaway with a difference. Castaway villas + overwater bungalows dot the island's crystal blue perimeter. The house-reef teems with iridescent life. Beyond the lagoon, the depths of the sea promise unforgettable sights. To set foot on Dhigali's sands is to escape into an adventure. On land, at sea or underwater, the thrill of discovery awaits. Dhigali Maldives prides itself on the preservation of 80% of the original vegetation of the island. The 'Jungle' that is located in the centre of the island has been untouched and provides an insight into the islands of old. The "jungle walk" which is a one of the unique places to visit embraces the look and natural feel of time gone by. All plants used in the landscaping around the buildings consist of indigenous varieties, which have also created a home to more than 20 different species of birds. A warm Maldivian welcome extends to all guests at Dhigali. Innovation in design, breath-taking scenery + inspired, intuitive service creates a truly sublime island experience. The all-inclusive premium experience means every element of your holiday has been carefully crafted to ensure it is as fun + stress-free as possible.

AWARDS

the Island Experience

Google 360 Street View

We are happy to announce the release of Google 360 Street View. This new feature allows us to showcase the resort, offering a transparent virtual tour experience of the island and all the facilities and room types.

Google 360 View of all room categories is now also integrated into resort website.

Please go to <https://www.dhigali.com/room-villas> for the full experience.

Local Island Tour

We have resumed excursions to the local islands where our guests can fully experience the local Maldivian culture. See the life of a Maldivian on two of the inhabited islands (Meedhoo + Fainu) The Friday mosque on the island of Meedhoo is believed to be 300 years old and estimated that it was built around 1705 CE during the reign of the first Sultan from Dhiyamigili Dynasty. The mosque was built using decorated interlocking coral stone from the reef, detailed timber lacquer work and intricate carvings. The construction method, 'coral stone carpentry', used to create these mosque is no longer practiced.

3 Hours Trip - weekly

First Tourism Expo in Raa Atoll in the Maldives

We were delighted to be part of the first Tourism Expo in Raa Atoll. Dhigali Maldives F&B production and service teams, supported by engineering, transport and the management team, put on an exciting display at the Culinary Exhibition at Meedhoo island. The purpose of this event was to showcase the talents of chefs working in resorts within Raa Atoll. Another vital goal of this event was to spark an interest for the culinary arts within the minds of youth and school children across the atoll.

Dive and Discover

Diving with Manta rays is a bucket list experience which you can enjoy not too far away from Baa Atoll where the famous "Hanifaru bay" UNESCO protected marine park is located and where hundreds of manta rays gather to feed on plankton every year. Because it is a protected bay there is no scuba diving allowed but when the plankton changes its route, these magnificent giants travel into our atoll and right there is when the show starts during our dives.

Before each dive your instructor will give you a detailed briefing about Manta rays and their behavior and how to dive and behave around them so that you have the best chances to have them passing close by and sometimes even hanging around your bubbles !

Spa and Wellbeing
