DHIGALI MALDIVES

A slender coral cay in the Raa Atoll, Dhigali Island is pure Maldivian bliss. Ringed by coral + kissed by the sun, this is a luxury hideaway with a difference.

Castaway villas + overwater bungalows dot the island's crystal blue perimeter. The house-reef teems with iridescent life. Beyond the lagoon, the depths of the sea promise unforgettable sights. To set foot on Dhigali's sands is to escape into an adventure. On land, at sea or underwater, the thrill of discovery awaits. Dhigali Maldives prides itself on the preservation of 80% of the original vegetation of the island. The 'Jungle' that is located in the centre of the island has been untouched and provides an insight into the islands of old. The "jungle walk" which is a one of the unique places to visit embraces the look and natural feel of time gone by. All plants used in the landscaping around the buildings consist of indigenous varieties, which have also created a home to more than 20 different species of birds.

A warm Maldivian welcome extends to all guests at Dhigali. Innovation in design, breath-taking scenery + inspired, intuitive service creates a truly sublime island experience. The all-inclusive premium experience means every element of your holiday has been carefully crafted to ensure it is as fun + stress-free as possible.

Dive and Discover

Diving with Manta rays is one of the top wishes of a diver and we do all the best for the chances to be on our side, we are lucky to be not too far away from Baa Atoll where the famous “Hanifaru bay” UNESCO protected marine park is located and where hundreds of manta rays gather to feed on plankton every year.

Because it is a protected bay it is not allowed to scuba dive there but when the plankton changes its route, these magnificent giants travel into our atoll and right there is when the show starts during our dives.

Before each dive your instructor will give you a detailed briefing about Manta rays and their behavior and how to dive and behave around them so that you have the best chances to have them passing close by and sometimes even hanging around your bubbles !
